J. T. WATERHOUSE

An inspector of food is needed in establishments where fresh goods are not always found. No one but a dealer in inferior stuff would object to it for the reason that men who make a point of buying the best goods at figures within the reach of the average breadwinner sell them so quickly that there is no danger of their spoiling.

We are making a specialty of groceries, good groceries which we buy and sell cheap. Care in the selection of them, no job lots left on the hands of jobbers, but good clean clear cut goods suitable for the best class of people, but which we sell at prices within the reach of every one. Our reputation for selling Dry Goods cheap extends from Niihau to Hawaii; it will be no greater than the record we intend making for selling groceries cheap. Our stock comprises: Teas, Coffees, Syrups, Honey, Jellies, Cross & Blackwell's Jams, Sago, Tapioca, Saloon Bread, Fish in tins, Salt Pork in tins for family use, and the best varieties of cheese.

Our stock is new and new goods are received by every steamer.

THE BOARD OF HEALTH.

PROCEEDINGS AT THE WEEKLY SESSION YESTERDAY.

Routine Reports Read—Bath House for the Lepers Settlement Ordered—Kalihi Experimental Station.

Attorney-General Smith occupied his usual position as president of the Board of Health at the meeting yesterday afternoon, the other members present being Drs. Wood and Emerson, T. F. Lansing and D. Kelliop.

After the routine business of reading the minutes and various reports of officials was finished the matter of a bath house for the leper settlement was brought up, and it was decided to have Superintendent Meyer and Dr. Oliver arrange suitable plans. The erection of a shed at the landing was also ordered.

Action on the charges of malpractice brought against C. T. Akana was again deferred.

Dr. Wood called the attention of the Board to certain matters at the experimental station and Kapiolani Home for girls, and president Smith said he would make the necessary investigations.

The question of examining school children again came up on the receipt of a letter from Dr. Howard, asking explicit instructions as to the extent of the examination he was required to make, and suggesting the employment of a lady physician for the girls.

President Smith said the matter in issue was whether the pupil had been vaccinated or not, not the general health of the scholar.

Dr. Wood suggested that the only way to do was to keep those children who were not vaccinated out of the public schools until they were, but no final action was taken by the Board.

The meeting closed with a description by Dr. Wood of the enforcement of the Japanese laws regarding prostitution and the of cremating manner bodies as witnessed by him during his recent trip to Japan.

"THE WOMAN IN BLACK."

EDITOR BULLETIN: I am a lady of moderate means but nevertheless a lady, and I must say that never in my life was I so outrageously treated as has been my misfortune since I came to your city two weeks ago. I have always endeavored to conduct myself in a perfectly modest and ladylike manner, and I do not see that the editors and reporters on the Pacific Commercial Advertiser have any right to criticize my actions in the ungentlemanly and flagrantly open way in which they have done. They have, as you of course know, even gone so far as to publish my picture and keep track of my movements, besides exciting the curiosity of the few readers of their paper, so that I am constantly being annoyed by impertinent people who follow me around and stare at me as if I were some escaped lunatic or dime museum freak.

My husband is a naturalist and a very absent-minded man, having, through a series of serious misfortunes, partially lost his memory. He left our home in Omaha about a year ago and for nine months I found no trace of his whereabouts. At last, through the efforts of a kind and very dear friend, I learned that he had taken passage on a steamship (the Mariposa I think) for the Sandwich Islands. I immediately arranged my affairs and, after a great many delays, I finally reached here on the seventeenth instant.

Now, my husband's habit has been, when suffering from his trouble, to walk about the streets and roads during the night. Many times, in Omaha, he has been found wandering around

aimlessly and brought home by police officers or acquaintances. Here, of course, he would be entirely unknown, and although I spent the first few days after my arrival in making inquiries at the hotels and boarding houses and at the police station, I could get no clue. I am now searching for him personally by going through the streets at night in the hope that I may meet him.

My dear husband and I have always thought the world of each other and I feel sure that I shall some day find him. I shall continue my efforts until I do.

I must say that I think the publicity given my actions by the paper mentioned is enough to make anyone in my circumstances very indignant, to say the least. If you have not the space in your columns to print this letter, will you kindly return it through the post office to:

Yours respectfully,

MRS. JAMES HAYES,
"The Woman in Black."

BOARD OF EDUCATION.

First Public Meeting of the New Members.

At yesterday's meeting of the Board of Education there were present president Cooper, Mrs. Dillingham, Mrs. Jordan and W. A. Bowen. Inspector-general Townsend and his deputy, J. F. Scott, were also on hand.

The Inspector-general reported that he had ordered the government school at Halawa, North Kohala, to be re-opened and the buildings to be gotten in readiness by September. He also had taken similar action in regard to the school at Mana.

Lum Wing Yin petitioned to be allowed to open a school for instruction in the Chinese language. The secretary was instructed to notify the applicant that no school could be open for children within the school age, from six to fifteen years, except upon the basis of instruction in the English language. Schools for persons beyond that age are not under the control of the Department of Education.

Applications for positions as teachers were received from Mrs. M. S. Goddard, Miss Venight and Miss Rasmussen and referred to the Committee on Teachers, consisting of Minister Cooper, Prof. Alexander and Mrs. Dillingham.

THIS MORNING'S FIRE.

Lucas's Planing Mill the Scene of the Blaze.

The alarm of fire at 10 minutes past midnight came from Lucas's planing mill. It originated in the rear room of the office, which is separated from the main building by brick walls. When discovered the fire was in and underneath the floor. A stream from the chemical engine extinguished the blaze in a few minutes, the only damage being to a portion of the floor from fire and to the desks and furniture by the chemical compound, which will wash off. A box filled with sawdust was used as a spittoon in the office, and it is supposed someone threw in the lighted end of a cigar, which communicated the fire to the sawdust and thence through the bottom of the box to the floor. The damage was trifling.

IN THE HIGHER COURTS

BRUNS MAINTAINS HIS RIGHT TO ESPLANADE LEASE.

An Appeal on Demurrer Dismissed Without Prejudice—Accounts "of the Corniot Estate."

The long-pending controversy of F. Harrison and A. V. Gear vs. J. H. Bruns has been decided by the Supreme Court. A verdict was rendered for the defendant at the February term, 1896, and plaintiffs appealed. The case was this: The Minister of Interior advertised for sale at public auction a lease of a government lot on the esplanade in Honolulu, and at the sale the auctioneer, a clerk of the Interior Department, knocked the lease down to defendant and made an entry to the effect in defendant's name alone at the time, he the defendant being the bidder. The plaintiffs offered to prove by oral testimony that defendant agreed with them that defendant would bid for and purchase the lease of land in question, and that the defendant broke this contract, and took the lease in his own name, and refuses to let plaintiffs into a share, and for this breach they claim damages. The plaintiffs also claimed that the agreement was in the nature of a partnership, and that such an agreement was not within the statute of frauds and need not be in writing.

Justice Whiting writes the unanimous opinion of the Court, overruling the exceptions. He quotes the Hawaiian statute of frauds, which provides that no action can be maintained on any contract for the sale of lands, unless it be in writing and signed by the party to be charged therewith. The Court refuses to consider exceptions against the ruling out of evidence for the plaintiffs, which are simply referred to as in the reporter's minutes and not written out on the face of the bill.

The law of the case is thus laid down: "If A and B make an oral contract, by which A is to buy land by auction upon the joint account of both in equal shares, the contract is within the statute of frauds, and, after the land has been conveyed to A, B cannot maintain an action for breach of contract."

Neumann for plaintiffs; Hartwell, Thurston and Stanley for defendant.

A decision has been rendered in Edward B. Barthrop and Joseph Schlumpf vs. Kona Coffee Company, Limited, -Victor J. Capron and James F. Morgan. It is by Justice Frear and unanimous, dismissing defendants, appeal without prejudice. The case had only reached the stage of the demurrer being overruled in the lower court, and the Supreme Court says:

"A decision overruling a demurrer to a bill in equity is not final for the purposes of appeal."

"An appeal in equity should be taken from the decree, not from the opinion of the court."

"Where a hearing on demurrer is pending and no time has been set for trial on the facts, the expenses of a witness summoned by plaintiff should not be taxed to defendant."

Little for plaintiffs, Thurston & Stanley for defendants.
F. A. Schaefer has presented his annual account as trustee of the estate of A. A. Corniot, showing receipts \$2702.61, payments \$1880.46, balance \$822.20. The inventory gives the value of the estate as \$18,822.20.

POLICE COURT MATTERS

Judge Wilcox Sentences a Native for Running a Distillery.

In the District Court this morning Judge Wilcox made an example of Kaehe, who pleaded guilty of distilling okelehae, by sentencing him to three months imprisonment and a fine of \$100.

Kaneleia pleaded guilty of selling swipes and got his sentence suspended, at the request of the prosecution.

The case of Ah Pau and Kue Sin, charged with selling foreign goods without a license, was continued to August 6th at request of the defendants.

Kalua, Kauhau and Anulu will be tried on August 4th for having opium in possession illegally.

Manuel Pestano entered a plea of not guilty of malicious injury and mischief in shooting a bullet through the house of one Antonio Rodrigues at night and inflicting damages on the house to the extent of \$2.50. His trial was set for Saturday.

Makainui acknowledged assaulting a fellow citizen and cutting him in the arm with a knife. He was fined \$20 and costs amounting to \$3 more.

The Vigesimal System.

One of the facts presented by Professor Corniot in his interesting volume, "The Number Concept," is the way the vigesimal system, or numeration having 20 as basis. It is found in old Irish, Welsh, Gaelic, Manx and Breton. When, however, 1,000 is reached, then comes in the Latin, as if the effects of Roman conquest were visible, for in Irish, Gaelic and Breton "mile" or "mill" is 1,000. Another peculiarity is that in French the persistence of the vigesimal system is visible. The French 80 is quatre-vingt, four times 20, and their 90 is quatre-vingt-dix, or four times 20, with 10 added. In old French soixante does not appear. It was treize vins, or three times 20. One hundred and twenty was six vins—that is, six times 20; and sept vins, or seven times 20, was 140. In Africa the vigesimal system is rare, but in Asia it is not uncommon, and is in use in northern Siberia.

Mrs. Howe's Husband.

Appropos of the "new woman," somebody resurrected an old story the other day about Mrs. Julia Ward Howe that may or may not be true. At all events it was worth resurrecting. The story goes that Mrs. Howe was one fine morning walking down Beacon street, Boston, when she met a friend, who asked her how Dr. Howe was. "Dr. Howe," repeated Mrs. Howe vaguely. Then, as if suddenly recollecting herself: "Oh, he's quite well, I'm sure. I remember seeing in the morning paper that he presided at some meeting or other the evening."

Pabst Is Its Name.

Climate of every variety exerts a different influence on the desires of mankind for a stimulant. In colder zones beverages of great alcoholic strength are used to a very much larger degree than in the tropics. Beer is best suited to our climate and none found in the market is better than that bearing the brand of "PABST MILWAUKEE." It is brewed from the best of malt and hops and is a great thirst quencher and invigorator and stimulates the nerves and muscles. At the Royal, Comopolitan and Pacific saloons it may be found, cold and pure; interchangeable checks are issued which may be used at any of the three resorts.

M. A. Peixoto, proprietor of the Union barber shop, next to the Art Gallery, guarantees to give a shave that will make your hair curl with joy.

When you are down on your luck and feel as if the world was cold, hard and dreary, just step into the Criterion saloon and partake of a glass of beer, and you will find a glass of beer.
